| SKU | gs-45507739386078 |
| Brand | HORI |
| Category | Video Games |
| Minimum order quantity | 1 |
| Unit | — |
| Unit price | $28.00 |
| Available quantity | 100 |

## Description

3D Compatible with 3D sources and displays. eARC (Enhanced Audio Return Channel) Enables transmission of original full resolution audio signal through the HDMI cable and reproduce the best sound without compromise. Auto Low Latency Mode (ALLM) Automattically switches between low latency mode and high picture quality mode depending on the source input from the HDMI-connected device Variable Refresh Rate (VRR) Reduces or eliminates lag and frame tearing for more fluid and better gameplay. HDMI Ethernet Channel (HEC) The HDMI Ethernet Channel allows internet-enabled HDMI devices to share an internet connection via the HDMI link, with no need for a separate Ethernet cable.  Consumer Electronics Control (CEC) Allows for control of HDMI connected devices through one remote controller. Operate your HDMI connected Blue-ray DVD player with the same remote you do the TV to which it's connected.  Deep color / BT.2020 Offering a wider color range, making it more accurate at reproducing color for 4K/8K and supporting high-definition video.  Durable metal housing and corrosion resistant gold-plated connectors. Noise-resistant triple shielded and Nylon-braided cable with aluminum grips for high durability and bending resistance.
