Description

RGB Gaming Microphone Havit GK61 The Havit GK61 microphone is perfect for live broadcasts, singing lessons, online gameplay and other situations requiring clear sound. It accurately captures voice, eliminating unwanted noise and interference. With 192 khz/24 bit resolution, every sound is recorded with extreme accuracy. Colorful RGB backlighting with 11 modes provides amazing visual effects. Sound that will delight anyone Havit The GK61 focuses on recording sound from the front, while reducing noise coming from other directions. So you can be sure that your voice will sound clear and crisp no matter where you are. It supports high-resolution 192 kHz/24-bit recording, providing excellent sound quality that will satisfy even the most demanding users. Convenient operation Operating the microphone will not cause you any problem. It has 2 built-in knobs that allow you to have full control over the sound quality. You will be informed about the working status of the device by the light indicator - blue means recording, while red means mute. What's more, the 3.5mm port allows you to connect headphones to the microphone, so you can listen to your voice in real time. Gaming design The Havit GK61 microphone will be the perfect addition to your gaming area. It features colorful RGB backlighting that gives it a unique gaming feel. It offers up to 11 different backlighting effects that will allow you to create an amazing atmosphere during any game.
