Description

CHR04 gaming chair is a professional gaming chair, which can also be used in offices and homes, referred to as gaming chair. The design is modified from European racing seats, with a cool shape and full of competitive colors! The gaming chair is ergonomically designed, with headrests and lumbar pillows, and the angle can be adjusted according to the sitting posture. It automatically follows when you lie down, and automatically returns to the normal sitting posture when you leave. User-friendly operation and experience. Since some games require users to put in a lot of energy and stay in a sitting position for a long time, gaming chairs can ensure user comfort. Available in 7 colors. Racing seat experience Remodeled from the European racing seat, the shape is cool and full of competitive colors! Automatic angle adjustment You can adjust the angle according to your sitting position, when the body is lying back, it will automatically follow, and when you leave it will automatically return to the normal sitting position.g seat Remodeled from the European racing seat, the shape is cool and full of competitive colors! You can adjust the angle according to your sitting position, when the body is lying back, it will automatically follow, and when you leave it will automatically return to the normal sitting position.eadrest, lumbar pillow The headrest can reduce the pressure on the neck, and the lumbar pillow perfectly fits the back curve, which can easily cope with long-term games, office, entertainment, etc.uy racing wheel Equipped with professional racing rollers, it slides smoothly and does not get stuck, with low noise. Equipped with professional three-stage gas spring, reliable quality and good elasticity. It is made of soft and comfortable PU+PVC material, which is healthy and odorless, and will not get tired after sitting for a long time.
