Description

Description A mysterious new substance was discovered on the remote planet, Rubicon 3. As an energy source, this substance was expected to advance humanity’s technological and communications capabilities. Instead, this substance caused a catastrophe that engulfed the planet and the surrounding stars in flames and storms, forming a Burning Star System. Almost half a century later, the same substance resurfaced on Rubicon 3, a planet now contaminated and sealed off by the catastrophe. Extra-terrestrial corporations and resistance groups fight over control of the substance. The player infiltrates Rubicon as an independent mercenary and finds themself in a struggle over the substance with the corporations and other factions. Features & details A new action experience from the makers of Dark Souls and Elden Ring Assemble and pilot your own mech 3D maneuverability to move freely through three-dimensional fast-paced missions Take on difficult challenges and overwhelm your enemies Infiltrate Rubicon as an independent mercenary
