Available quantity	100

Description

iSteady XE is the lightest on the market with a three-axis design, making it incredibly easy to use and meeting the needs of a wide range of users. ➤ Quick Mount and Start: First of all, unfold iSteady XE, then tighten the knob, and keep smartphone clamped centrally, that's it! It start to work after powering on. ➤ Upgraded Stabillization iSteady 7.0 Algorithm: Taking your smartphone shooting to the next level, allowing you to create smooth on-the-move footage with ease. It is improved by 30% as anti-shake as the previous generation and has more powerful motors that operate more efficiently. ➤ Lighter Weight: At 259g, this is the most lightweight 3-axis smartphone gimbal for creators on the move. ➤ Better Hold: The motor torques have been improved by 30%, ensuring that your phone can stay where it needs to be, even when carrying larger smartphones. ➤ Independently Magnetic Fill Light: 3 types of light colors with 10 brightness levels, the magnetic fill light can be used on iSteady XE to highlight subjects with excellent lighting wherever you go. Surprisingly, it can also function without being magnetized to the gimbal. ➤ Simplified Control: Quickly switch between Landscape and Portrait Mode by pressing function button once, quickly switch between gimbal modes (PF/PTF/L/POV) by simply pressing M button once, and quickly enable Inception Mode(spin shot) by simply pressing the function button three times. ➤ One-Tap Blockbuster: You can make blockbuster with little effort thanks to diverse shooting templates in the app. Travel, Street, Sports... Any scenes, just name it 01 Daily Vlog 02 Travel Vlog 03 Street Vlog 04 Family Vlog 05 Sports Vlog 06 Content Creation on Social Media SNAP IT ONTO THE GIMBAL. THAT'S IT. Magnetic FillLight Featuring10-LevelAdjustableBrightness Independent Design The magnetic fill light can be used on iSteady XE to highlight subjects with excellent lighting wherever you go. Surprisingly, it can also function without being magnetized to the gimbal. 3 Types of Light Colors Light yourself better with adjustable brightness and color temperature.
