Minimum order quantity	1
Unit	—
Unit price	$28.00
Available quantity	100

Description

The story of Cal Kestis continues in Star Wars Jedi: Survivor, a third person galaxy-spanning action-adventure game from Respawn Entertainment, developed in collaboration with Lucasfilm Games. This narratively-driven, single player title picks up five years after the events of Star Wars Jedi: Fallen Order and follows Cal’s increasingly desperate fight as the galaxy descends further into darkness. Pushed to the edges of the galaxy by the Empire, Cal will find himself surrounded by threats new and familiar. As one of the last surviving Jedi Knights, Cal is driven to make a stand during the galaxy’s darkest times - but how far is he willing to go to protect himself, his crew, and the legacy of the Jedi Order? To survive, players will build upon Cal’s training with an expanded list of iconic Force abilities, combat stances, and lightsaber customizations that can be combined in new and different ways to fight as a Jedi. While the Force is a powerful ally, it may not be enough. Cal will have to get creative and master new abilities, tactics and even leverage the environment around him to overcome the obstacles ahead. Features & details Continue Cal’s Journey - No longer a Padawan, Cal has come into his own and grown into a powerful Jedi Knight. Go Beyond Your Training – The cinematic combat system returns with additional Force abilities and new lightsaber fighting styles. Explore an Untamed Galaxy – Discover new planets and familiar frontiers in the Star Wars galaxy, each with unique challenges, and enemies. The Dark Times are closing in – with enemies surrounding him, Cal will need to decide how far he’s willing to go to save those closest to him.
