Description

Drive into the thick of the action behind the wheel of the new 2022 WRC hybrids. Rise to all the challenges of the most comprehensive, realistic and demanding rally simulation ever developed. Dive into the heart of the action and drive the cars from the 2022 WRC championship, including the new hybrid models. 2022 will see the WRC transition to the hybrid era. This is a revolution for the rally world, significantly affecting performance, changing strategies and making drivers and teams adapt. In terms of gameplay, new mechanics have been integrated to represent the demands of the hybrid engines. In order to win, you have to carefully manage your battery by adapting your engine mapping throughout the special stages you take part in. For fans of competition, the new Leagues mode lets players challenge opponents with a similar level online. Finish ahead of your competitors to move up the ladder in the Legends category. Features & details 750 km of unique special stages in 22 countries; A new Rally Sweden environment with 6 brand-new special stages 49 teams from the 2022 season (Rally1 / Rally2 / Junior WRC); A LEAGUES mode in which you can challenge other players 37 legendary cars plus additional bonuses and new hybrid vehicles 165 timed special stages New, even more realistic vehicle physics
