Description

The Controller Grip cover completely solves the problem of accidentally throwing your controllers into the room, and also provides a better protection for your controllers. The Elastic Knuckle Strap is adjustable, so you can share with your friends with different hand sizes and increase immersion, because you can completely release your controllers without dropping. The texture design of the controller grip cover can increase the friction force and provide better grip for the hand, and the texture helps the air flow to easily drain the sweat from your hand,which is non-slip, durable, and comfortable to enhance your game enjoyment
