Description

Model: H6199 Govee DreamView T1 Wi-Fi TV Backlights Enhanced Visuals Beyond Your Screen Govee Envisual RGBIC Voice Control APP Control Govee Envisual Color-Match Technology Our Govee Envisual camera intelligently recognizes and captures the colors on your TV screen and applies then to your backlights automatically. Extend your playing universe beyond the four corners of your TV screen. Your Voice Has Power Enjoy hands-free control? We’ve got you covered. Use Siri, Alexa, or Google Assistant to power your lights on/off, change their colors, or increase/lower the brightness to your desired level. With simple voice commands, you’ll save time while setting the mood you want. Light Up Your Music It’s time you fully immerse in your favorite songs. Sync the dynamic sounds of that live concert or karaoke night with vivid colors, greatly enhancing your musical experience. Every Side Covered Govee DreamView T1 TV backlights are perfect for most 55-85inches flatscreens Reinvent how you binge-watch your favorite TV shows with dynamic colors emitting from every corner of your TV.This backlight is not optimized to work with curved TVs. 12 Scene Modes Create your epic gaming or casual movie night ambiance with 12 dynamic scene modes to choose from. Segmented Color For those who want more color, you'll love our segmented color control feature, made possible by our RGBIC technology. Personalize every segment on a single strip light for a more vibrant viewing experience. Smart APP Control Use the Govee Home app to power your lights on/off or select light modes from anywhere with a Wi-Fi connection.
