Brand	Sold Out
Category	Video Games
Minimum order quantity	1
Unit	—
Unit price	$26.00
Available quantity	100

Description

Release Date: May 26, 2022 The award-winning series returns as Karl Fairburne fights to uncover Project Kraken in 1944 France. The genre-defining authentic sniping, with enhanced kill cam, has never looked or felt better as you fight across immersive maps to stop the Nazi war machine in its tracks. The latest instalment in the award-winning series, Sniper Elite 5 offers unparalleled sniping, tactical third-person combat and an enhanced kill cam. Fight your way across the most immersive maps yet, with many real-world locations captured in stunning detail, and an improved traversal system that lets you explore more of them than ever before. France, 1944 – As part of a covert US Rangers operation to weaken the Atlantikwall fortifications along the coast of Brittany, elite marksman Karl Fairburne makes contact with the French Resistance. Soon they uncover a secret Nazi project that threatens to end the war before the Allies can even invade Europe: Operation Kraken. Expansive Campaign Many real-world locations have been captured using photogrammetry to recreate a living, immersive environment, and multiple infiltration and extraction points and kill list targets provide a whole new perspective on each mission. Advanced Gunplay Physics and Traversal Use ziplines, slide down slopes and shimmy along ledges to reach the perfect vantage point, or to sneak past a sharp-eyed lookout. Factor in rifle stock and barrel options along with gravity, wind and heart rate while you line up your sights on the target. High Calibre Customization Use workbenches to customise and upgrade virtually every aspect of your weapon – change scopes, stocks, barrels, magazines and more. Rifles, secondaries and pistols all have a huge variety of options. Invasion Mode - Campaign Drop in PvP and Co-Op Invade another player’s Campaign as an Axis sniper and engage in a deadly game of cat and mouse, providing a new dimension to the challenge as you stalk your prey. Tense Adversial Multiplayer Customize your character and loadout and earn XP, medals and ribbons as you take on intensely competitive 16 player battles that will really test your sharpshooting skills. Enhanced Kill Cam More realistic and grisly than ever, the trademark X-ray kill cam returns, showing you the true destructive power of each shot. Bones deflect bullets unpredictably, ripping a new path through enemy bodies.
