Description

Compact keyboard featuring custom HyperX mechanical switches. The HyperX Alloy Origins is a compact, sturdy keyboard featuring custom HyperX mechanical switches designed to give gamers the best blend of style, performance, and reliability. These key switches have exposed LEDs for stunning lighting with an actuation force and travel distance elegantly balanced for responsiveness and accuracy. Alloy Origins is built with a full aluminum body so it stays rigid and stable when keystrokes are flying, and also features keyboard feet that let you choose from three different tilt levels. Its sleek, compact design frees up space for mouse movement, and it also features a detachable USB-C cable for supreme portability. Customize your lighting, craft macros, and adjust Game Mode with HyperX NGENUITY Software. This powerful, yet easy-to-use program lets you set per-key lighting, layer dazzling lighting effects, and add scores of other personalized touches to your NGENUITY-compatible products. HyperX mechanical switches Full aircraft-grade aluminum body Compact, portable design with detachable USB-C cable Dazzling RGB lighting with dynamic effects Advanced customization with HyperX NGENUITY software Three adjustable keyboard angles HyperX mechanical switchesThe key switches are custom-designed to be a balance of responsiveness and accuracy, featuring a short travel time and low actuation force. They’re also reliable, rated for 80 million keypresses with no loss of quality. Full aircraft-grade aluminum bodyThe aluminum casing keeps the keyboard structurally sound and stable when the action gets intense and the game hangs in the balance; battle after battle, night after night. Compact, portable design with detachable USB-C cableThe small footprint gives you plenty of room for rapid mouse movements. It also has a detachable cable so it’s easy to take on the go. RGB backlit keys with radiant lighting effectsHyperX mechanical switches feature an exposed LED for brighter, more luminous RGB lighting. Advanced customization with HyperX NGENUITY SoftwareCustomize Game Mode, take greater control over lighting effects, and set up your own macros. Three adjustable keyboard tilt anglesAdjust the two-step keyboard feet for three different angle settings (3°, 7°, or 11°), whichever makes your wrists the most comfortable. Onboard memory for three profilesCreate your own custom-designed lightshows, save them directly to the keyboard, and take them with you on the go. Game Mode, 100% anti-ghosting, and N-key rolloverEnsure that all your keypresses register and that you’re not accidentally taking yourself out of the game in key moments.
