Description

A Next Level Gaming Experience - EndGame Racing Seat Simulator Heavy Duty Steel Construction Compatible with most steering wheels & pedals Compatible with all consoles Fully adjustable sizes, 10 minute setup time Ready to enhance your home gaming experience? The Racing Seat is a must have experience for all racing sims! It supports up to a 330 lbs (150 kg) load with a solid steel frame inside of the soft-padded & folding seat, which allows most people to use it easily. It includes all necessary accessories, being quick and easy to assemble with the supplied instructions. The steering wheel stand has been pre-drilled for many different wheels. It's suitable for both teens and adults. ! Key Features & Details Steel constructed tube system The comfortable racing seat back folds down for storage. It sits on a sturdy steel tube frame, padded in foam, then wrapped in a soft PVC leather cover. Provides great stability and durability with its sleek black powder coating. Joints are welded with supports to ensure longevity. Fully adjustable to fit teens & adults Several parts are adjustable to fit all sizes of player: adjustable pedals, adjustable wheel mount, and adjustable wheel stand forwards and backwards with a sliding rail. It's suitable for both teens and adults up to 330 pounds! Compatible with your favorite accessories The steering wheel stand is compatible with all major wheel and pedals. It fits those made by PS5, PS4, PS3, Xbox Series X|S, Xbox One, Xbox 360, Logitech G29, G920, G27, G25, and most Thrustmaster wheels, pedals, and shifters. The wheel platform also fits Fanatec DD1, DD2 and CSL Elite Base and ClubSport Clamps. Includes extra bolts for steering and pedal mounting.
