Description

The HyperX SoloCast is made for streamers, and gamers looking for a great-sounding USB microphone. It’s Plug N Play, making it simple to use, and features our fan-favorite tap-to-mute sensor. The versatile microphone has a flexible, adjustable stand and is also compatible with most boom arms, so it can either sit on your desk or work mounted. It’s TeamSpeak and Discord certified and compatible with OBS, XSplit, and Streamlabs OBS, an extremely streamer-friendly microphone. Features & details Plug N Play audio recording: Get quality audio recordings with this easy-to-use USB condenser microphone. The cardioid polar pattern prioritizes sound sources directly in front of the microphone. Tap-to-Mute sensor with LED status indicator: Simply tap the top of the mic to mute, and the signature LED indicator lets you immediately see whether or not you’re broadcasting. Flexible, adjustable stand: The easy-to-position stand swivels to support a variety of setups. You can even fit under a monitor if your setup is tight on space. Boom arm and mic stand threading: Versatile microphone fits 3'8-inch and 5'8-inch threaded setups, making it compatible with most mic stands or boom arms. Multi-device and program compatibility: Get great sound whether you’re connecting to a PC, PS4, PS5 or Mac. SoloCast is certified by Discord and TeamSpeak, and works on major streaming platforms like Streamlabs OBS, OBS Studio, and XSplit.
