Description

Colourful Fun Choose a colour or select the phasing option and watch the word “over” change between different colours. The game might be over, but the party isn’t with an 8-bit light that flashes to the beat of your music. Lots of Options Choose your favorite colour, change it every day, or compliment your room with the steady- on static light option. Power Power up the light by plugging in the included USB cord into any USB port whether that’s your laptop, gaming console, power bank, or your own USB adapter (adapter not included). 3 modes It's 3 colorful modes of fun! Choose to have the lights flash to the beat of music, steady- on mode in your choice of a static solid color, or color changing mode with 7 different colors. Great Gift Looking for a gift for the friend who has everything? Light up collectables are a great solution for the gaming fan in your life. For guys, girls, or even your work bestie, we have a design for everyone.
