Description

Get a whole new experience while playing racing games with the Logitech G923 racing wheel for Xbox Series X|S and Xbox One. It's powered by TRUEFORCE feedback technology that offers incredible realism and detail by directly connecting to game engines with fast processing speeds. The hand-stitched leather wheel cover and polished metal pedals add to the style. TRUEFORCE feedback technology establishes direct connectivity to a game, offering incredible realism by processing at 4,000 times a second Programmable dual clutch offers you a quicker take off from the starting line with maximum traction and reduced smoke 24-point selector, RPM LEDs, integrated Xbox or PC game controls, and progressive brake spring provide steady vehicle control at high speeds in compatible games Updated Logitech G design with brushed metal wheel, hand-stitched leather wheel cover, and polished metal pedals contribute to the wheel's premium craftsmanship G HUB gaming software for PC (downloadable separately) ensures total wheel control including wheel sensitivity, force feedback levels, and button customisation G HUB gaming software supports most racing games on PC and Xbox, with select titles solely designed for TRUEFORCE Works on Xbox Series X, Xbox Series S, and Xbox One
