Release Date: 16/11/2021 Once again, our beloved Smurf friends have to find a way to elude Gargamel’s evil plans! In his dark laboratory, the evil wizard Gargamel has discovered a formula allowing him to create a wicked plant, called Vileaf. This plant produces “Viletrap” seeds, which can attract Smurfs and imprison them in vegetal traps! But these Viletrap plants are also a great danger for the forest, as they are highly toxic, especially for the sarsaparilla fields! For this very important mission, players will take control of an ace Smurf team featuring Hefty, Smurfette, Brainy and Chef! Our heroes can rely upon a very handy tool, the Smurfizer, a revolutionary invention from Handy Smurf. The Smurfizer allows the Smurfs to get rid of the foes they encounter, heal the plants afflicted by the Vileaf, as well as jump higher, glide through the air or dive. Embark on a brand-new journey with a unique and easy to pick up gameplay.
