SKU	gs-39437964968013
Brand	Logitech
Category	Video Games
Minimum order quantity	1
Unit	—
Unit price	$310.00
Available quantity	100

Description

Logitech G923 is a high-performance racing wheel that revolutionizes the e-racing experience. Re-engineered to support a game-changing feedback system, G923 features TRUEFORCE, next-generation force feedback that dials into game physics to deliver higher fidelity realism. Feel the pistons pumping, the gravel crunching, and every shift, drift, and hairpin turn like never before. An all-new progressive brake pedal recreates pressure-sensitive brake system, while a programmable dual-clutch system simulates a real race car launch assist in supported games. Get more traction with less smoke. A streamlined design features integrated controls for better performance, with a built-in 24-point selection dial, full console controls, and the classic RPM LED display for supported games. Features TRUEFORCE force feedback Next-gen TRUEFORCE technology connects to game engines for high-definition feedback. Experience the ultimate driving experience with processing at 4000 times per second. Programmable dual clutch Get off the starting line cleaner and faster. A programmable dual clutch simulates real race car launch assist right from the controller, when playing supported games. Control your game Fine-tune your speed with a built-in LED RPM indicator. Integrated PlayStation 5, PS4, PC game controls, a 24-point selector and progressive brake spring keep steering under control. Premium racing design Refreshed Logitech G gear design includes premium materials like a hand-stitched black leather wheel cover and polished metal pedals. Experience the pleasure of driving at home. On-wheel game controls Take charge of wheel sensitivity, force feedback levels and simulated steering. Logitech G Hub Gaming software enable button customization right from the controller.
