Available quantity	100

Description

Many will enter, only one will emerge in the Battle Royale. Stay in the center of the action with the FPS Freek Battle Royale Nightfall Performance Thumbsticks. These domed, high-rise thumbsticks improve accuracy, comfort and control to keep you fighting and foraging in games like Fortnite, Call of Duty and Player Unknown Battlegrounds (PUBG) until the storm subsides. Designed to meet ergonomic and performance needs specific to the Battle Royale genre, FPS Freek Battle Royale Nightfall increases your controller stick height by 11.7mm and arc distance by 120%. This improves your shooting accuracy, particularly at mid-to-long ranges. The unique, black on black design creates intense grip to allow quick transitions between building, looting and farming. With FPS Freek Battle Royale, you’ll play better for longer, helping you become the last one standing. Features & details INCREASED ACCURACY - Adds 11.7 mm of added height to increase arc distance, resulting in more precise in-game movements and faster target acquisition ENHANCES GRIP - Non-slip, proprietary rubber compound offers exceptional grip with laser-etched detailing INCREASED COMFORT - Requires less force which reduces wrist, hand and thumb fatigue TWO HIGH-RISE (CONVEX) THUMBSTICKS - Improves your shooting accuracy, particularly at mid-to-long ranges, and allows quick transitions between building, looting and farming ERGONOMICALLY DESIGNED - to meet performance needs specific to the Battle Royale genre in games like Fortnite, Apex Legends, Blackout and Player Unkown Battlegrounds (PUBG) *Packaging May Not Reflect Updated Compatibility
