Product	KontrolFreek FPS Freek Inferno for Xbox One and Xbox Series X Controller
SKU	gs-39322219675725
Brand	KontrolFreek
Category	Video Games
Minimum order quantity	1
Unit	—
Unit price	$7.00
Available quantity	0

Description

KontrolFreek Performance Thumbsticks are designed to provide an advantage in gameplay by increasing the controller’s arc distance and maximizing agility, accuracy and grip. They snap easily on and off your controller’s original thumbsticks, creating a new stick experience that will take your gaming to the next level! Inferno’s 9.9mm of added height increases the analog stick radial distance by 47%, which provides an arc distance increase of 135.5%. This gives you the ability to make smaller, more precise in-game movements, affording you the luxury of turning up controller sensitivities to maximum levels so you can turn on your opponents faster and gain the upper-hand. Inferno features a vibrant red-on-black color scheme and the distinct spiral pattern that adapts to the pressure you put on it, so the harder you play, the harder Inferno works to keep your thumbs from slipping. Features & details INCREASED ACCURACY - Adds 9.9 mm of added height to increase arc distance, resulting in more precise in-game movements and faster target acquisition ENHANCES GRIP - Non-slip, proprietary rubber compound offers exceptional grip with laser-etched detailing INCREASED COMFORT - Requires less force which reduces wrist, hand and thumb fatigue TWO HIGH-RISE (CONCAVE) THUMBSTICKS - Improves your shooting accuracy, particularly at mid-to-long ranges DESIGNED - with a comfortable spiral pattern that adapts to the pressure you put on it, so the harder you play, the harder Inferno works to keep your thumbs from slipping *Packaging May Not Reflect Updated Compatibility
