Description

Stream the entertainment you love to your TV in up to 4K resolution with the Google Chromecast with Google TV. This media streamer works with almost any smart TV with an HDMI port and Wi-Fi. Google TV and Android apps give you access to movies, TV shows, music, and much more. Cast from your compatible device, and use the voice remote for hands-free search and suggestions. Unlocking a treasure trove of content Get access to all the movies, TV shows, music, and streaming entertainment you love in high resolution (up to 4K HDR) via Google TV and Android apps, or by streaming from a compatible device (note: subscriptions may be required to access all content; 4K content requires a 4K-capable TV and a reliable internet connection) Cast directly from your phone or tablet to your smart TV with ease Get personalised recommendations based on your subscriptions, viewing habits, and content you own Home screen puts your movies and TV shows from all your services in one place, so you don't have to switch from app to app to find your favourites Watchlist makes it easy to mark content so you can view it later Control at your fingertips and via your voice Stream content directly from your compatible Android or iOS smartphones and tablets, Mac and Windows laptops, Chromebooks, and other devices Voice remote lets you use your voice controls and Google Assistant to search for specific shows, display recommendations, control the volume, switch inputs, play music, and more If you can't find the remote, use other Google speakers and displays (sold separately) to control your TV with your voice Stunning video and audio quality Supports resolutions up to 4K at 60fps and high dynamic range (HDR) for stunning picture quality Even if you don't have a 4K-enabled TV, Chromecast delivers the best possible visuals for your TV Dolby Vision, HDR10, and HDR10+ support ensures images with impressive brightness, contrast, and colour Support for Dolby Digital, Dolby Digital Plus, and Dolby Atmos (pass-through) enables high-quality audio when it's available on your content Pair with compatible Google speakers (sold separately) to fill your home with sound, and control everything using your voice or the app Easy to connect and install Works with almost any TV with an HDMI port; simply plug it in, connect to Wi-Fi, and start streaming Alternatively, you can use the optional ethernet adapter to connect directly to your router Wi-Fi (802.11ac, 2.4GHz/5GHz) and Bluetooth give you quick, easy connectivity options Even more features Smart home integration lets you control a variety of other Google Home devices (sold separately) so you can dim the lights, adjust the temperature, and much more using voice controls Watch what's going on around your house by watching the feed for your Nest Cam (sold separately) on your TV View a slideshow of your pictures from your Google Photos library on your TV 49% of Chromecast's plastic parts are made with recycled materials, helping keep waste out of landfills
