Description

Turn any TV smart and start streaming Simply plug the Chromecast into your TV and connect to your home WiFi to get started. From there you can cast straight from compatible apps, Streaming made simple straight from your smartphoneEach member of the family can stream straight from their smartphone, tablet, or PC, so there’s no need to re-login to your accounts or share passwords. You don’t need to put anything on pause either, as you can still use your phone as you normally would. Works with Google Home for handsfree controlChromecast works with Google Home to make things even easier. Say what you want to watch and control your TV handsfree with voice commands such as “Ok Google, Stream content to your TV, WiFi, Works with Google Assistant Key Features Stream from your device to your TV. Stream from Android, Iphone or your laptop Works with Google Assistant
