Description

soundcore Sleep A30 Special Sleep Earbuds Make winding down more comfortable with soundcore Sleep A30 Special in Lunar White Special. Lightweight earbuds combine sleep-focused noise reduction with soothing audio and a low-profile fit designed for side sleepers. Features Triple noise reduction combines active noise cancellation, passive isolation and adaptive snore-masking audio. The charging case detects snoring and helps the earbuds adapt their masking audio; snoring is masked by audio rather than ANC. Explore selected Calm Sleep Stories, white noise and meditation sounds in the soundcore app. Bluetooth streaming lets you listen to music, podcasts and audiobooks. Soft silicone and an ergonomic profile help reduce pressure when resting on your side. App features include sleep monitoring, visual reports, personalized alarms and auto-shutoff settings. Tech Specs Edition: Sleep A30 Special; manufacturer SKU: D1301ZB1 Color: Lunar White Special Drivers: 4.6 mm; design: in-ear, true wireless Bluetooth: 5.4; audio codecs: SBC and AAC Earbud weight: approximately 3 g each Playtime: 8–10 hours with default auto-switch playback; charging case extends use to up to five nights. Runtime varies with playback mode, ANC and volume. Default playback streams Bluetooth audio before sleep and automatically switches to local audio after sleep is detected.
