Description

Anker PowerConf C302 2K WebcamBring clearer video and voice to your calls with the Anker PowerConf C302. AI framing, autofocus and low-light correction help keep you visible during meetings and streaming.Features 2K video at 30 fps delivers a detailed picture. AI framing adjusts the view to keep participants in frame. Dual microphones reduce background noise for clearer voice pickup. Autofocus, HDR and low-light correction help maintain a clear image. Adjustable clip supports monitor or desktop placement; a tripod thread adds mounting flexibility. Slide-on privacy covers let you cover the lens between calls.
