Description

Dreame Aero Straight High-Speed Styler The Dreame Aero Straight is a high-speed wet-to-dry hair styler designed to straighten as it dries using controlled airflow instead of traditional hot plates. With a 110,000 RPM motor, 1600W power, Pure Airflow Straightening, NTC temperature monitoring, and a 2.8m cable, it is built for faster styling with less direct heat contact. Key Features Wet-to-Dry StylingStraightens hair while drying, combining two steps into one routine. Pure Airflow StraighteningUses directed airflow instead of hot plates or clamping. 110,000 RPM High-Speed MotorDelivers powerful airflow for faster drying and styling. 1600W PowerProvides strong performance for everyday styling. Triple Hair CareDesigned to support smoother, shinier, stronger-looking hair through controlled airflow styling. NTC Temperature MonitoringChecks temperature up to 200 times per second for more consistent heat control. Long 2.8m Power CableGives more freedom of movement during styling. Main Feature Sections Straighten as You DryThe Aero Straight is designed to style wet hair directly, helping reduce the need to fully blow-dry before straightening. No Hot Plates or ClampingInstead of pressing hair between heated plates, the styler uses concentrated airflow to smooth and straighten. High-Speed Airflow PerformanceThe 110,000 RPM motor provides strong airflow to speed up drying while supporting a straighter finish. Controlled Heat for Hair CareThe built-in NTC thermistor monitors temperature 200 times per second to help maintain a more stable styling temperature. Technical Specifications Product Type: High-Speed Wet-to-Dry Hair Styler Brand: Dreame Model: Aero Straight Rated Voltage: 220–240V Rated Power: 1600W Rated Frequency: 50–60Hz Motor Speed: 110,000 RPM Temperature Monitoring: 200 times per second Noise Level: 76dB Unit Dimensions: 44 × 53 × 331mm Net Weight: 507g Power Cord Length: 2.8m Styling Method: Pure airflow straightening Wet-to-Dry Styling: Yes Hot Plates: No Styling Performance The Dreame Aero Straight is designed for: Wet-to-dry straightening Smoothing Frizz control Everyday hair drying Straight styles Polished finishes Faster one-step styling routines Hair Care The styler combines airflow-based straightening with continuous temperature monitoring to reduce reliance on direct heated plates.
