Description

Dreame Tasti DZ30 Air Fryer 11L The Dreame Tasti DZ30 is a large 11L dual-basket air fryer designed for cooking two dishes at the same time with independent compartments. With 3000W power, 360° Dual-Source Cyclonic Heating, Fresh-Lock moisture retention, temperatures up to 240°C, eight cooking programs, dehydration mode, and a titanium-ceramic coating, it is built for large meals with fast, even cooking and less manual turning. Key Features 11L Dual-Basket CapacityTwo independent cooking chambers allow different foods to cook at the same time. 3000W PowerDelivers strong heating performance for large-capacity cooking. 360° Dual-Source Cyclonic HeatingUses top and bottom heating to cook food evenly without requiring frequent flipping. Fresh-Lock Hydrodynamic SystemHelps retain moisture so food stays tender inside while developing a crisp exterior. Up to 240°C High-Heat ModeSuitable for stronger browning, caramelization, and crisping. 8 Cooking ProgramsProvides quick access to common cooking modes from the touchscreen interface. Dehydration FunctionSupports low-temperature drying of fruits and vegetables. Titanium-Ceramic CoatingDesigned to resist scratches and staining while making cleanup easier. Main Feature Sections Cook Two Dishes at OnceThe 11L capacity is split across two independent baskets, allowing different foods to cook simultaneously while reducing aroma transfer between compartments. Fast, Even CookingDual-source heating from the top and bottom works with cyclonic airflow to provide more uniform cooking and reduce the need to turn food manually. Crispy Outside, Tender InsideFresh-Lock technology is designed to help retain moisture during cooking, supporting a crisp exterior without excessively drying the food. High-Temperature CookingThe DZ30 reaches up to 240°C for recipes that benefit from stronger browning and a crisp finish. Technical Specifications Product Type: Dual-Basket Air Fryer Brand: Dreame Model: Tasti DZ30 Total Capacity: 11L Basket Configuration: 2 independent baskets Power: 3000W Heating System: 360° Dual-Source Cyclonic Heating Temperature Range: 35°C–240°C Programs: 8 Control: Touchscreen Display: Yes Fresh-Lock System: Yes Dehydration Function: Yes Coating: Titanium-ceramic Overheat Protection: Yes Wi-Fi: No Smartphone Control: No Smart Home Integration: No Color: Black Dimensions: 40.4 × 43.1 × 30.5cm Weight: 8.5kg Cooking Performance The DZ30 is designed for: Air frying Crisping Roasting Browning Dehydrating Low-temperature drying Dual-dish cooking High-temperature finishing Dual-Basket Cooking The two independent baskets are useful for preparing: Protein in one basket and vegetables in the other Two foods with different cooking requirements Larger family portions Different flavors with reduced cross-aroma between chambers Cleaning & Maintenance Titanium-ceramic coated surfaces Dishwasher-safe components Scratch- and stain-resistant coating Easy-care basket system Allow parts to cool before cleaning and follow the appliance instructions for dishwasher-safe components.
