Description

Marshall Stanmore III Bluetooth Home Speaker The Marshall Stanmore III is a premium home Bluetooth speaker built for room-filling sound, classic Marshall styling, and flexible connectivity. With a wider stereo soundstage, Bluetooth 5.2, RCA and 3.5mm inputs, app control, OTA updates, and dedicated bass and treble controls, it is designed for powerful everyday home listening. Key Features Re-Engineered Wider Stereo SoundstageOutward-angled tweeters and updated waveguides create a broader, more immersive listening experience. Powerful 80W AmplificationUses one 50W Class D amplifier for the woofer and two 15W Class D amplifiers for the tweeters. Bluetooth 5.2Supports modern wireless audio connectivity and is ready for Bluetooth LE Audio. RCA + 3.5mm InputsConnect turntables, computers, TVs, music players, and other compatible wired sources. Analogue Bass & Treble ControlsFine-tune sound directly from the speaker. Marshall Bluetooth AppAccess advanced sound settings and OTA software updates. Iconic Marshall DesignFeatures the classic Marshall script, textured cabinet styling, and brass-style controls. Main Feature Sections Wider, More Immersive SoundThe Stanmore III uses a two-way driver system with outward-facing tweeters to create a wider soundstage while maintaining strong bass, clear mids, and crisp treble. Simple Pair-and-Play OperationBluetooth pairing, volume, bass, treble, source selection, playback, and power controls are all available directly on the top panel. Flexible Wired & Wireless ConnectivityUse Bluetooth 5.2 for wireless streaming, or connect through RCA and 3.5mm inputs for compatible wired devices. App Control & OTA UpdatesThe Marshall Bluetooth app adds extra sound controls and allows software updates to keep supported features current.
