Description

JBL PartyLight Beam The JBL PartyLight Beam is a compact party lighting system designed to create a room-filling, music-synchronized lightshow. It can automatically sync with compatible JBL PartyBox speakers or react directly to your music, delivering immersive lighting for parties, gatherings, and entertainment spaces. Key Features Automatic Music SyncSynchronizes its lightshow with your music for a more immersive party atmosphere. JBL PartyBox IntegrationWorks with compatible Auracast-enabled JBL PartyBox speakers for synchronized lighting. Room-Filling LightshowOne PartyLight Beam can cover up to approximately 400 sq ft / 40 m². 20W Lighting PowerDelivers bright, immersive lighting for indoor party spaces. Choreographed LightshowBuilt-in music detection creates coordinated lighting effects based on the music. Multi-Light SynchronizationMultiple PartyLight Beams can work together for a larger synchronized lightshow. Main Feature Sections Take Your Party to the Next LevelThe PartyLight Beam automatically reacts to music and can synchronize with compatible JBL PartyBox lightshows, adding a coordinated visual element to your setup. Room-Filling AtmosphereWith 20W of lighting power, a single unit can illuminate an area of up to around 40m² under JBL’s stated conditions. Bigger Lightshows with Multiple UnitsConnect multiple PartyLight Beams together and the built-in music detection system creates a larger synchronized lightshow in less than a minute.
