Description

Marshall Kilburn III Portable Bluetooth Speaker The Marshall Kilburn III is a powerful portable Bluetooth speaker built for long listening sessions, indoor and outdoor use, and wide 360° sound. With 50+ hours of playtime, True Stereophonic audio, IP54 dust and water resistance, and Dynamic Loudness, it is designed to deliver strong bass, clear mids, and crisp highs across different volume levels. Key Features 50+ Hours of PlaytimeProvides more than two days of portable listening on a single charge. True Stereophonic 360° SoundUses a stereo arrangement designed to deliver sound around the speaker with minimal blind spots. Improved Sound TuningDelivers deep bass, clear mids, and crisp highs through wide-band drivers. IP54 Dust & Water ResistanceBuilt to handle light dust, splashes, and everyday outdoor use. Dynamic LoudnessAutomatically adjusts bass, mids, and treble as volume changes to help maintain balanced sound. Main Feature Sections Built for Long Listening SessionsWith more than 50 hours of portable playback, the Kilburn III is designed for extended use at home, on balconies, during trips, and in outdoor spaces. Wide 360° Marshall SoundTrue Stereophonic technology spreads audio around the speaker, creating a more consistent listening experience from different positions. Balanced Sound at Any VolumeDynamic Loudness continuously adjusts the tonal balance as volume changes, helping preserve bass, midrange, and treble detail. Ready for Indoor and Outdoor UseThe IP54-rated construction provides protection against dust and light water exposure, making the Kilburn III suitable for more demanding everyday environments.
