Description

Marshall Emberton III Portable Bluetooth Speaker The Marshall Emberton III is a compact portable Bluetooth speaker built for powerful everyday listening, long battery life, and outdoor durability. With Marshall Signature Sound, True Stereophonic multidirectional audio, 32+ hours of playtime, dust and water resistance, a built-in microphone, and Bluetooth LE Audio readiness with Auracast support, it is designed for travel, outdoor use, and all-day listening. Key Features Marshall Signature SoundDelivers fuller, more balanced sound with enhanced bass across different volume levels. True Stereophonic AudioCreates a multidirectional sound experience designed to surround the listener more evenly. 32+ Hours of PlaytimeProvides extended portable listening on a single charge. Dust & Water ResistantRugged construction designed to handle outdoor use, dust, and rain. Built-In MicrophoneSupports convenient hands-free calls directly through the speaker. Bluetooth LE Audio ReadyPrepared for newer Bluetooth audio features, including Auracast-based audio sharing. Main Feature Sections Portable Marshall SoundThe Emberton III combines compact portability with Marshall’s signature sound tuning, delivering strong bass and balanced performance for everyday music listening. Multidirectional ListeningTrue Stereophonic technology spreads audio in multiple directions, helping create a fuller listening experience around the speaker. Built for Long DaysWith more than 32 hours of battery life, the Emberton III is suitable for travel, outdoor gatherings, and extended use without frequent charging. Future-Ready Wireless AudioBluetooth LE Audio readiness prepares the speaker for improved wireless audio features and Auracast sharing with compatible devices.
