Product	Philips Azur 8000 Series Steam Iron
SKU	cm-DST8041
Brand	Philips
Category	Home Appliances
Minimum order quantity	1
Unit	—
Unit price	$275.00
Available quantity	100

Description

Philips Azur 8000 Series Steam Iron The Philips Azur 8000 Series Steam Iron is designed for powerful, fast ironing with less effort and no manual temperature adjustment. With 3000W power, up to 90g/min continuous steam, 260g turbo steam boost, OptimalTEMP technology, intelligent automatic steam, SteamGlide Elite soleplate, 350ml water tank, Quick Calc Release, and automatic shut-off, it is built for demanding everyday ironing across a wide range of ironable fabrics. Key Features 3000W PowerProvides fast heat-up and strong ironing performance. 90g/min Continuous SteamDelivers powerful, consistent steam for faster crease removal. 260g Turbo Steam BoostHelps tackle stubborn wrinkles and thicker fabrics such as denim. OptimalTEMP TechnologyAllows ironing different ironable fabrics without changing temperature settings. Intelligent Automatic SteamMotion sensor detects movement and releases steam automatically while ironing. SteamGlide Elite SoleplateDesigned for smooth gliding, durability, scratch resistance, and easy cleaning. 350ml Water TankReduces the need for frequent refilling during larger ironing sessions. Quick Calc ReleaseHelps remove limescale buildup and maintain long-term steam performance. Main Feature Sections One Temperature for All Ironable FabricsOptimalTEMP technology removes the need for a traditional temperature dial. Users can move from jeans to silk or linen to cashmere without waiting for temperature changes between garments. Powerful Steam for Tough CreasesThe Azur 8000 Series delivers up to 90g/min continuous steam and a 260g steam boost, helping penetrate thicker fabrics and remove stubborn creases more effectively. Automatic Steam While You MoveIntegrated motion-sensing technology recognizes when the iron is moving and releases steam automatically, reducing the need to continuously operate a steam trigger. Smooth SteamGlide Elite PerformanceThe SteamGlide Elite soleplate is designed for easy movement over garments while providing good durability and resistance to scratches. Technical Specifications Product Type: Steam Iron Brand: Philips Series: Azur 8000 Series Power: 3000W Continuous Steam: Up to 90g/min Steam Boost: Up to 260g Turbo Steam: Yes OptimalTEMP Technology: Yes Automatic Steam: Motion sensor technology Soleplate: SteamGlide Elite Rosecopper Water Tank Capacity: 350ml Vertical Steam: Yes Drip Stop: Yes Tap Water Suitable: Yes Calc Management: Quick Calc Release Auto Shut-Off: Yes Auto-Off Time: Approx. 8 minutes Power Cord Length: 2.5m Pointed Tip: Yes Color: Black Iron Weight: 1.78kg Steam Performance Continuous Steam: 90g/min Steam Boost: 260g Vertical Steam: Supported Water Tank: 350ml The high continuous steam output is designed for fast crease removal, while the 260g boost provides extra power for heavier fabrics and stubborn wrinkles. OptimalTEMP Technology OptimalTEMP is designed to provide one safe heat-and-steam setting for ironable fabrics. This removes the need to manually adjust temperature between different garment types. Intelligent Automatic Steam The built-in motion sensor detects movement of the iron and automatically releases steam while you iron, helping make the process faster and more effortless. Vertical Steam Vertical steam shots can be used to refresh hanging garments and help remove creases from curtains without placing them on an ironing board. Safety & Maintenance Automatic shut-off after inactivity Drip-stop system Quick Calc Release Tap-water compatible Stable soleplate and pointed tip for detailed areas Regular calc cleaning is recommended to maintain strong steam output, especially in areas with hard water. Best Use Cases Large laundry loads Shirts and trousers Jeans and thicker fabrics Delicate ironable fabrics Mixed-fabric ironing Hanging garments Curtains Users who want strong steam without adjusting temperature Compatibility Suitable for all fabrics marked as ironable Designed for use with ordinary tap water Always follow garment care labels Not intended for materials marked as non-ironable.
