Description

Philips ProMix Hand Blender 3000 Series HR2520 The Philips ProMix Hand Blender 3000 Series HR2520 is designed for quick, smooth everyday blending with a lightweight and easy-to-handle body. With a 400W motor, Philips ProMix technology, anti-splash blade guard, ergonomic non-slip grip, transparent measuring beaker, and compact design, it is ideal for soups, smoothies, purées, dips, sauces, and other daily kitchen tasks. Key Features 400W MotorProvides reliable power for everyday blending tasks. Philips ProMix TechnologyUses a triangular-shaped blade design to create better ingredient flow for smoother and more consistent blending. Anti-Splash Blade GuardHelps reduce splashing and mess during use. Ergonomic Non-Slip GripDesigned for better control and more comfortable handling. Lightweight & Slim DesignEasy to hold, maneuver, and store. Transparent Measuring BeakerIncludes visible measurements for easier ingredient preparation. Hot & Cold Food UseThe included beaker can be used for both hot and cold food. Easy to CleanThe blending bar can be rinsed directly under running water. Main Feature Sections Smooth Everyday BlendingThe Philips HR2520 uses a 400W motor to handle common blending tasks such as soups, smoothies, purées, dips, and sauces. ProMix Advanced Blending TechnologyDeveloped with Stuttgart University, ProMix uses a triangular blade design to improve food flow around the blade for faster and more consistent blending. Less Splash, Less MessThe specially designed blade guard surrounds the blade to help reduce splash-back while blending. Comfortable to HoldThe slim body, low weight, and ergonomic grip help make the hand blender easier to control during longer food-preparation tasks.
