Description

Philips Essentials Collection Kettle 1000 Series HD9314 The Philips Essentials Collection 1000 Series Kettle HD9314 is designed for fast, simple everyday boiling. With 2200W power, 1.7L capacity, a concealed flat heating element, spring lid, removable scale filter, automatic shut-off, boil-dry protection, water-level indicator, and 360° cordless base, it is a practical kettle for tea, coffee, instant drinks, and cooking water. Key Features 1.7L CapacitySuitable for preparing multiple cups of hot water at once. 2200W Fast BoilingPowerful heating for quick preparation of tea, coffee, and cooking water. Flat Concealed Heating ElementHelps water boil quickly while making the kettle easier to clean. Automatic Shut-OffSwitches the kettle off automatically when boiling is complete. Boil-Dry ProtectionUses a Strix controller to help protect the kettle from overheating when insufficient water is present. Removable Scale FilterHelps reduce limescale particles in poured water. Water-Level IndicatorMakes it easier to boil only the amount of water you need. Spring LidOpens at the touch of a button for easier filling and cleaning. 360° Cordless BaseAllows easy lifting and repositioning from different directions. On/Off LED LightClearly indicates when the kettle is operating. Main Feature Sections Fast Boiling for Everyday UseThe HD9314 uses a 2200W heating system with a concealed flat heating element to boil water quickly for drinks, breakfast, and cooking. Simple and Safe OperationAutomatic shut-off and boil-dry protection help make daily use more convenient and safer. Easy Refilling and CleaningThe spring lid opens with a button, while the kettle can also be filled through the spout. The concealed heating element and removable filter make regular cleaning easier. Efficient Water UseThe visible water-level indicator helps users boil only the amount required, reducing unnecessary water and energy use.
