Product	Philips HR7778 Food Processor 1300W
SKU	cm-HR7778
Brand	Philips
Category	Kitchen & Dining
Minimum order quantity	1
Unit	—
Unit price	$445.00
Available quantity	100

Description

Philips 7000 Series Food Processor HR7778 The Philips 7000 Series Food Processor HR7778 is a powerful all-in-one kitchen solution for chopping, slicing, shredding, kneading, whipping, blending, juicing, and more. With a 1300W motor, PowerChop technology, 3.4L processing bowl, 2.2L blender jar, 12 speeds plus pulse, and 3 one-touch automatic programs, it is designed to handle everyday meal preparation as well as demanding tasks like bread dough, whipping, and ice crushing. Key Features Powerful 1300W MotorHandles chopping, kneading, blending, slicing, shredding, and other demanding food-preparation tasks. PowerChop TechnologyCombines blade shape, cutting angle, and bowl design for efficient chopping of both soft and hard ingredients. 3.4L Large-Capacity BowlOffers a working capacity of up to 2L for family-size food preparation. 2.2L Blender JarHandles up to 1.5L of ingredients for smoothies, shakes, sauces, and cold blending. 12 Speeds + PulseProvides precise control for different ingredients and recipes. 3 One-Touch Auto ProgramsAutomatic settings for bread dough, whipping, and ice. Metal Kneading HookWorks with the powerful motor to efficiently mix and knead bread dough. Double Metal Balloon BeaterDesigned for whipping cream and egg whites with light, airy results. XXL 18cm DiscsLarge stainless steel discs help process ingredients faster. Dishwasher-Safe AccessoriesIncluded accessories are designed for easier cleaning. Main Feature Sections One Machine for Multiple Kitchen TasksThe HR7778 can chop, slice, shred, knead, whip, blend, emulsify, juice citrus fruits, and prepare a wide range of ingredients, reducing the need for multiple separate appliances. PowerChop for Better ChoppingPhilips PowerChop technology combines the S-blade shape, cutting angle, and bowl geometry for effective chopping. It can also be used for purées and mixing cake batter. Easy Bread Dough PreparationThe metal kneading hook and 1300W motor quickly bring ingredients together into a dough ball and continue kneading with controlled force for homemade bread and dough recipes. Automatic Programs for Common TasksThree one-touch programs automatically select appropriate speed and pulse patterns for dough, whipping, and ice crushing. Technical Specifications Product Type: Food Processor Brand: Philips Series: 7000 Series Model: HR7778 Power: 1300W Voltage: 230V Frequency: 50Hz Technology: PowerChop Speed Control: 12 speeds + pulse Preset Programs: 3 Maximum RPM: 23,000 Bowl Capacity: 3.4L Bowl Working Capacity: Up to 2L Blender Jar Capacity: 2.2L Blender Working Capacity: Up to 1.5L Dough Capacity: Up to 1.7kg Functions: Blending, chopping, slicing, shredding, kneading, emulsifying, citrus pressing Main Material: Plastic Secondary Material: Metal Blade Material: Stainless steel Jar Material: SAN BPA-Free: Yes Dishwasher-Safe Parts: Yes Ice Crushing: Yes Hot Ingredient Blending: No Automatic Blade Stop: Yes Non-Slip Feet: Yes Cord Storage: Yes Cord Length: 1m Control: Rotary knob + 3 preset program buttons Product Dimensions: 26.6 × 25.5 × 42cm Product Weight: 3.865kg Noise Level: Lc = 88dB(A) Processing Capacity Food Processor Bowl: 3.4L Working Capacity: Up to 2L Dough: Up to 1.7kg Egg Whites: Up to 7 Blender Jar: 2.2L Blending Capacity: Up to 1.5L Serving Capacity: Suitable for family-size preparation Stainless Steel Processing Discs The HR7778 includes dedicated processing options for: Fine and coarse shredding Granulating potatoes or cheese Julienne vegetable strips French fries Slicing and general food preparation The XXL 18cm disc design helps process larger quantities efficiently.
