Description

Philips Viva Collection Toaster HD2637 The Philips Viva Collection Toaster HD2637 is designed for users who want evenly browned toast from both thin pre-sliced bread and thicker hand-cut slices. With 2 extra-wide self-centering slots, 7 browning levels, built-in bun warmer, reheat and defrost functions, high lift, removable crumb tray, automatic shut-off protection, and a black metal-and-plastic body, it is a practical everyday toaster for breakfast, frozen bread, pastries, rolls, and buns. Key Features 2 Extra-Wide SlotsDesigned to fit thin, thick, fresh, or frozen bread slices. Self-Centering RacksHelp keep each slice centered for more even browning. 7 Browning LevelsAdjust toast color and crispness to personal preference. Built-In Bun WarmerUseful for warming rolls, pastries, and buns. Reheat & Defrost FunctionsReheat previously toasted bread or toast frozen bread in one go. High Lift FunctionMakes smaller bread pieces easier and safer to remove. Cancel ButtonStops the toasting cycle at any time. Removable Crumb TrayHelps make cleaning easier after use. Automatic Shut-Off ProtectionAdds extra safety during operation. Main Feature Sections Even Browning for Different Bread ThicknessesThe HD2637 uses extra-wide slots and a self-centering mechanism to hold slices in the correct position. This helps deliver more consistent browning whether the bread is thin, thick, fresh, or frozen. 7 Levels of Browning ControlWith 7 adjustable browning settings, users can choose anything from lightly toasted bread to a darker, crispier finish. More Than Just ToastThe built-in bun warmer lets users heat pastries, rolls, and buns without placing them directly inside the toaster slots. Simple Everyday OperationReheat, defrost, high lift, cancel, and removable crumb tray functions make the toaster easy to use and maintain for daily breakfast routines.
