Description

Zilan Rozerin 45L Electric Convection Oven The Zilan Rozerin 45L Electric Oven is designed for users who need a practical countertop oven for baking, roasting, grilling, and everyday home cooking. With 2000W power, 45L capacity, adjustable temperature from 100°C to 230°C, convection ventilation for even baking, mechanical controls, 0–60 minute timer with automatic shut-off, double insulated glass, overheating protection, non-slip base, and elegant black design, it is a strong option for family kitchens and daily meal preparation. Key Features 45L Large CapacitySuitable for baking, roasting, heating, and preparing family-sized meals. 2000W Heating PowerProvides strong performance for faster cooking and efficient oven use. Convection Ventilation FunctionHelps distribute heat more evenly for better baking and roasting results. Adjustable Temperature ControlTemperature range from 100°C to 230°C for different cooking needs. 0–60 Minute Programmable TimerIncludes automatic shut-off for safer and more convenient cooking. Mechanical Control PanelSimple manual controls for temperature, timer, and oven settings. Double Insulated GlassHelps improve heat retention during cooking. Safety Features IncludedAutomatic shut-off, overheating protection, and non-slip base. Elegant Black DesignClean modern look that fits easily in most kitchens. Main Feature Sections Large 45L Capacity for Daily CookingThe Zilan Rozerin oven offers a 45L capacity, making it suitable for home users who need more space than a small mini oven. It can be used for baking, roasting, grilling, reheating, and preparing everyday meals. Convection Function for Even BakingThe ventilation convection function helps circulate heat inside the oven, supporting more even baking results compared to basic heating-only ovens. Simple Mechanical ControlsThe mechanical control panel keeps operation straightforward, making it easy to adjust temperature, timer, and cooking settings without complicated digital menus. Built for Safer UseWith automatic shut-off, overheating protection, non-slip base, and double insulated glass, the oven is designed for more stable and safer daily kitchen use. Technical Specifications Product Type: Electric Convection Oven Brand: Zilan Model / Series: Rozerin Capacity: 45L Power: 2000W Temperature Range: 100°C–230°C Control Panel: Mechanical Timer: 0–60 minutes Automatic Shut-Off: Yes Convection / Ventilation Function: Yes Glass: Double insulated glass Safety Features: Automatic shut-off, non-slip base, overheating protection Power Supply: 220–240V / 50–60Hz Color: Black Dimensions: 56 × 42 × 35cm Use Case: Baking, roasting, grilling, reheating, family cooking, and countertop kitchen use Cooking Performance Capacity: 45L Power: 2000W Temperature: 100°C–230°C Timer: 0–60 minutes Convection: Supported Cooking results depend on food type, tray position, cooking time, temperature setting, and preheating.
