Description

JBL Bar 2.0 All-in-One MK2 Soundbar The JBL Bar 2.0 All-in-One MK2 is designed for users who want a simple TV sound upgrade with deep bass, JBL Surround Sound, built-in Dolby Digital, Bluetooth music streaming, and easy HDMI ARC or optical connection. With 80W total output, two racetrack drivers, compact low-profile design, and all-in-one setup with no extra speakers or wires, it is a practical soundbar for movies, sports, music, and everyday TV entertainment. Key Features 80W Total Speaker PowerDelivers stronger sound than standard TV speakers for movies, music, and sports. Deep Bass PerformanceEnhances action scenes, music playback, and TV entertainment with fuller low-end sound. JBL Surround SoundCreates a more immersive sound experience without extra rear speakers. Built-In Dolby DigitalHelps deliver a more cinematic home viewing experience. Bluetooth Music StreamingStream music wirelessly from a phone, tablet, or compatible device. HDMI ARC & Optical InputSimple connection options for easy TV setup. Low-Profile DesignCompact shape fits easily in front of most TVs. All-in-One SetupNo separate subwoofer or extra speaker wiring required. Main Feature Sections Upgrade Your TV SoundThe JBL Bar 2.0 All-in-One MK2 is made for users who want better clarity, stronger bass, and a more enjoyable TV experience without building a large home theater system. Deep Bass for Movies and MusicIts all-in-one design includes deep bass performance that helps action scenes, sports, and music feel fuller compared to standard TV audio. JBL Surround Sound and Dolby DigitalJBL Surround Sound and built-in Dolby Digital help create a more immersive home cinema feel for movies, shows, and games. Easy Connection and Bluetooth StreamingThe soundbar connects to your TV using HDMI ARC or optical input. It also supports Bluetooth streaming, so users can play music from mobile devices when they are not watching TV.
