Description

HOCO D9 Outdoor PTZ Dual-Lens Security Camera The HOCO D9 Outdoor PTZ Dual-Lens Security Camera is designed for users who need wider outdoor monitoring with closer detail in one camera. With a dual-lens design, PTZ pan and tilt movement, HD live view and recording, infrared and full-colour night vision, 2.4GHz Wi-Fi, smartphone app control, weatherproof housing, and microSD card support, it is a practical security camera for homes, shops, gardens, entrances, driveways, and warehouses. Key Features Dual-Lens Camera DesignCombines wide-area viewing and closer detail in one outdoor security camera. PTZ Pan and Tilt ControlMotorized movement helps cover more area around your property. Dual Night VisionSupports infrared night vision and full-colour low-light viewing. HD Live View and RecordingProvides clear video monitoring for daily security needs. 2.4GHz Wi-Fi ConnectivityConnects wirelessly to compatible home or shop Wi-Fi networks. Smartphone App ControlAllows remote live viewing and recording access from your phone. Weatherproof Outdoor HousingBuilt for outdoor installation in suitable exposed areas. microSD Card SupportSupports local storage using a compatible microSD card, not included. Main Feature Sections Dual-Lens Outdoor CoverageThe HOCO D9 is made for users who want to monitor a wider area while still keeping closer detail available. This makes it useful for entrances, driveways, shop fronts, gardens, and outdoor corners. PTZ Control for Better SurveillanceThe motorized pan and tilt function allows the camera to move and cover more of the surrounding area compared to a fixed-position camera. Day and Night MonitoringWith dual night vision, the camera can switch between infrared and full-colour low-light modes depending on lighting conditions and setup. Remote Viewing from SmartphoneThe 2.4GHz Wi-Fi and app control allow users to check live footage and recordings remotely from a compatible phone. Technical Specifications Product Type: Outdoor PTZ Dual-Lens Wi-Fi Security Camera Brand: HOCO Model: D9 Color: White Camera Design: Dual-lens Movement: Motorized PTZ pan and tilt Video: HD live view and recording Night Vision: Infrared + full-colour dual mode Connectivity: 2.4GHz Wi-Fi Control: Smartphone app control Storage: microSD card support, card not included Housing: Weatherproof outdoor body Use Case: Home entrances, gardens, driveways, shop fronts, warehouses, and outdoor monitoring Night Vision Infrared Mode: For dark environments Full-Colour Mode: For low-light colour viewing when supported by lighting conditions Night vision performance depends on installation position, ambient light, distance, and surrounding surfaces.
