Description

Hoco ZP50 Mini 360° Car Air Outlet Fragrance The Hoco ZP50 Mini 360° Aroma Diffusion Car Air Outlet Fragrance is designed for users who want a compact and clean car fragrance accessory for daily driving. With ABS + silicone material, 19g lightweight build, permeable membrane fragrance release, up to 2 months fragrance duration, manual replacement, and car air vent installation, it is a practical car interior accessory for fresher air and a more pleasant driving experience. Key Features Mini Car Air Vent FragranceDesigned to attach to a car air outlet for convenient fragrance diffusion. 360° Aroma Diffusion DesignHelps distribute fragrance through the car’s air vent airflow. Permeable Membrane ReleaseUses a permeable membrane system to release scent gradually. Up to 2 Months Fragrance DurationProvides long-lasting fragrance depending on usage and air conditioning conditions. Manual ReplacementFragrance replacement is handled manually when the scent is finished. ABS + Silicone MaterialLightweight and practical construction for daily car use. Compact 19g DesignSmall and easy to install without adding bulk to the dashboard area. Suitable for Car Air VentsMade specifically for car air outlet placement. Main Feature Sections Compact Car Fragrance SolutionThe Hoco ZP50 is made for users who want a simple car scent accessory that looks neat and does not take up space. Its mini size makes it suitable for most car interiors. Air Vent Aroma DiffusionBy mounting on the car air outlet, the fragrance can spread more effectively when air flows through the vent. This makes it useful during air conditioning or fan operation. Long-Lasting Fragrance UseThe ZP50 offers up to 2 months of fragrance duration, depending on airflow, temperature, usage frequency, and fragrance insert condition. Lightweight and Easy to UseAt only 19g, the fragrance accessory is easy to install, remove, and replace manually when needed. Technical Specifications Product Type: Car Air Outlet Fragrance Brand: Hoco Model: ZP50 Design: Mini 360° aroma diffusion Material: ABS + silicone Fragrance Release Method: Permeable membrane Fragrance Duration: Up to 2 months Replacement Method: Manual Suitable Placement: Car air vent / car air outlet Dimensions: 41 × 45 × 58mm Weight: 19g Use Case: Car interior fragrance, daily driving, air vent aroma diffusion, and car freshness Fragrance System Release Method: Permeable membrane Duration: Up to 2 months Diffusion Style: Air outlet / vent-based aroma release Fragrance strength depends on airflow speed, vent position, cabin temperature, and how often the air conditioner or fan is used. Best Use Cases Daily car fragrance Car air vent scent diffusion Reducing unpleasant cabin smells Personal car interior accessory Gift accessory for drivers Compact dashboard-free fragrance solution Users who prefer a small air vent fragrance instead of hanging perfumes Compatibility Suitable for car air vents Best used with vents that can hold the accessory securely Fit may vary depending on air vent shape, thickness, and angle Not recommended for unstable, broken, or unusually shaped vents.
