Description

Hoco EA8 Ear-Clip Open-Ear True Wireless Headset The Hoco EA8 Ear-Clip Open-Ear True Wireless Headset is designed for users who want comfortable wireless earbuds for music, movies, calls, and everyday use without a traditional in-ear fit. With Bluetooth 5.4, TWS technology, app support, Hall sensor automatic pairing, up to 6 hours of working time, 35mAh battery per earphone, 350mAh charging case, ABS material, and lightweight 50g total design, it is a practical headset for daily listening, commuting, work, and casual entertainment. Key Features Open-Ear Ear-Clip DesignComfortable fit for users who prefer not to use deep in-ear earbuds. Bluetooth 5.4 ConnectivitySupports a stable and energy-efficient wireless connection with compatible devices. True Wireless StereoTWS design gives users cable-free listening for music, calls, videos, and daily use. Up to 6 Hours Working TimeProvides up to 6 hours of use on a single earphone charge. 350mAh Charging CaseAllows the earbuds to be recharged multiple times while on the go. App SupportSupports app functions for additional settings and personalization. Hall Sensor Automatic PairingAutomatically starts pairing when the charging case is opened for easier daily use. JL AC6973D4 ChipBuilt with JL AC6973D4 chipset for Bluetooth audio performance. Compact and LightweightTotal weight is around 50g, making the set easy to carry in a pocket or bag. Main Feature Sections Comfortable Open-Ear ListeningThe Hoco EA8 is made for users who want a lightweight ear-clip headset for long daily use. The open-ear style is more comfortable for many users compared to traditional in-ear earbuds. Bluetooth 5.4 for Daily Wireless UseBluetooth 5.4 helps provide a stable connection, lower power use, and smoother listening with compatible phones, tablets, and laptops. Smart Pairing and App SupportThe Hall sensor allows automatic pairing when the case is opened, while app support adds more control and personalization depending on the supported app functions. Practical Battery SetupEach earphone has a 35mAh battery, while the charging case has a 350mAh battery. This makes the EA8 useful for daily music, calls, and video watching. Technical Specifications Product Type: Open-Ear True Wireless Headset Brand: Hoco Model: EA8 Earphone Style: Ear-clip, open-ear TWS Connectivity: Bluetooth 5.4 Chip: JL AC6973D4 Earphone Battery: 35mAh each Charging Case Battery: 350mAh Working Time: Up to 6 hours Features: App support, Hall sensor automatic pairing Material: ABS Total Weight: 50g Case Dimensions: 68.4 × 53.3 × 33.2mm, verify exact listing format before publishing Use Case: Music, movies, calls, commuting, work, study, casual gaming, and daily wireless listening Battery Life & Charging Earphone Battery: 35mAh each Case Battery: 350mAh Working Time: Up to 6 hours Actual battery life depends on volume level, Bluetooth signal, call use, app functions, and battery condition. Bluetooth Version Bluetooth: 5.4 Wireless Type: True Wireless Stereo Bluetooth performance depends on the connected device, distance, environment, and wireless interference. Best Use Cases Music listening Watching movies and videos Voice calls Daily commuting Office use Study use Walking and casual outdoor use Users who prefer open-ear earbuds Users who dislike pressure from in-ear tips Compatibility Compatible with Bluetooth-enabled phones, tablets, laptops, and other audio devices App functions depend on supported device, app availability, and software version Open-ear design may allow outside noise to remain audible, which is useful for awareness but not ideal for full noise isolation.
