Description

Hoco X89 Fast Charging Data Cable Micro 2m The Hoco X89 Fast Charging Data Cable Micro 2m is designed for users who need a longer Micro-USB cable for charging and basic data transfer. With 2m cable length, braided nylon fiber outer material, aluminum alloy connectors, 2.4A charging support, reinforced internal core structure, and a 3.2mm cable diameter, it is a practical cable for daily charging at home, office, bedside, car, or travel use. Key Features 2m / 6.6ft Cable LengthProvides extra reach compared to standard short cables, useful for bedside, desk, sofa, office, or car charging. Micro-USB ConnectorSuitable for compatible Micro-USB devices such as older phones, accessories, speakers, power banks, cameras, and other supported devices. Supports 2.4A ChargingProvides up to 2.4A charging support with compatible chargers and devices. Data Cable FunctionSupports charging and data transfer for compatible Micro-USB devices. Braided Nylon Fiber Outer MaterialHelps improve durability and resistance to everyday bending and pulling. Aluminum Alloy ConnectorsGives the cable a stronger connector finish compared to basic plastic connector designs. Reinforced Core StructureBuilt with internal core specification of (65/0.08) × 2 + (10/0.08) × 2. 3.2mm Outer DiameterPractical cable thickness for daily use while remaining flexible. Lightweight 50g DesignEasy to carry in a bag, drawer, car, or travel pouch.
