Description

Zilan ZLN4229 Laundry Dryer Scarlatto The Zilan ZLN4229 Laundry Dryer Scarlatto is designed for users who need a practical clothes drying rack for home laundry, balconies, bathrooms, laundry rooms, and indoor drying areas. With durable materials, adjustable racks, adjustable wire spacing, anti-slip plastic feet, static powder coating, nylon packaging, and a 33-meter drying capacity, it is a useful household solution for drying clothes without using electricity. Key Features 33-Meter Drying CapacityProvides a large drying area for clothes, towels, shirts, pants, baby clothes, and daily laundry. Adjustable RacksAllows flexible use depending on laundry quantity, garment size, and available space. Adjustable Wire SpacingHelps users arrange clothes more comfortably and improve airflow between garments. Durable MaterialsDesigned for regular home laundry use. Static Powder CoatingHelps protect the metal structure and gives the dryer a cleaner finished look. Anti-Slip Plastic FeetProvides better stability on indoor flooring and helps reduce unwanted movement. Foldable-Style Practical UseSuitable for homes, apartments, balconies, laundry rooms, and compact living spaces. Nylon Packaging for Each ProductComes packed with nylon protection for cleaner handling and storage. Main Feature Sections Large Drying Space for Daily LaundryThe Zilan ZLN4229 offers 33 meters of drying capacity, making it suitable for families, apartments, and users who need more space than a small basic drying rack. Flexible Rack AdjustmentThe adjustable racks make it easier to dry different types of clothing, from small garments to larger pieces. Users can adjust the setup depending on the laundry load and the available room space. Better Airflow with Adjustable Wire SpacingAdjustable wire spacing helps reduce clothes crowding and supports better airflow between garments, which is important for more effective indoor drying. Stable Indoor PlacementThe anti-slip plastic feet help keep the laundry dryer steady on flat surfaces, making it more suitable for tile, bathroom floors, laundry rooms, and indoor use. Durable Coated StructureThe static powder coating helps protect the dryer’s frame and supports a more durable daily-use design. Technical Specifications Product Type: Laundry Dryer / Clothes Drying Rack Brand: Zilan Model: ZLN4229 Series / Color Name: Scarlatto Drying Capacity: 33 meters Rack Type: Adjustable racks Wire Spacing: Adjustable Feet: Anti-slip plastic feet Coating: Static powder coating Material: Durable materials Packaging: Nylon packaging for each product Use Case: Indoor clothes drying, balcony drying, laundry room drying, bathroom drying, apartment use, household laundry, towels, shirts, pants, and daily garments Drying Capacity Total Drying Space: 33 meters Best For: Medium to large laundry loads, family use, and daily clothes drying The large drying capacity gives users more room to spread clothes properly instead of overcrowding them on a small rack. Design & Stability Adjustable Racks: Supported Adjustable Wire Spacing: Supported Anti-Slip Feet: Supported Coating: Static powder coating The adjustable design makes the rack more flexible, while the anti-slip feet help improve stability during use. Best Use Cases Drying clothes indoors Balcony laundry drying Bathroom drying Laundry room use Apartment use Family laundry Towels and daily garments Baby clothes Shirts and pants Users who want a non-electric drying solution Users who need a large drying rack with adjustable space Compatibility Suitable for indoor and covered outdoor use Best used on flat, stable surfaces Drying performance depends on airflow, room humidity, fabric type, garment thickness, and spacing between clothes Avoid overloading beyond the rack’s practical balance and structure.
