Description

Hoco DT6 720p Wireless Projector The Hoco DT6 720p Wireless Projector is designed for users who want a compact HD LCD projector for screen mirroring, movies, videos, presentations, and casual home entertainment. With 720p resolution, 85 ANSI brightness, 22–140 inch projection size, 2.4G + 5G dual-band Wi-Fi, Bluetooth 5.1, manual focusing, USB-A and HDTV input, 3.5mm AUX output, tripod mounting support, remote control, and multi-language menu support, it is a practical portable projector for bedrooms, small rooms, and basic projection setups. Key Features 720p HD ProjectionSupports 1280 × 720 resolution for casual video viewing, screen mirroring, and basic presentation use. HD LCD Wireless ProjectorUses LCD display technology with wireless connectivity for easier content sharing. 22–140 Inch Projection SizeAllows flexible projection size depending on room space and projection distance. 0.83–3m Projection DistanceSuitable for small rooms, bedrooms, desks, and compact home setups. 85 ANSI BrightnessDesigned for dark or low-light environments where projection visibility is easier. 2.4G + 5G Dual-Band Wi-FiSupports wireless screen mirroring through 2.4G and 5G Wi-Fi connection. Bluetooth 5.1Allows Bluetooth audio connection with compatible devices. Manual FocusingLets users manually adjust focus for clearer image sharpness. USB-A and HDTV InputSupports external media and wired video input through USB-A and HDTV ports. 3.5mm AUX OutputAllows connection to wired speakers or headphones through AUX output. Tripod Mount SupportCan be mounted on a tripod for better placement and angle control. Tripod is not included. Compact Lightweight DesignMeasures 141.5 × 112 × 63.5mm and weighs only 375g, making it easy to move and store. Main Feature Sections Compact 720p Projector for Home UseThe Hoco DT6 is built for users who want a small projector for casual movies, YouTube, screen mirroring, presentations, and entertainment in a bedroom or small room. Its compact size makes it easy to place on a table, shelf, or tripod. Wireless Screen Mirroring SupportWith 2.4G + 5G Wi-Fi, the DT6 supports wireless connection for screen mirroring from compatible devices. This is useful for sharing mobile content, videos, photos, or presentations without needing a direct video cable. Flexible Projection SizeThe projector supports a 22–140 inch projection size with a projection distance of 0.83–3m. This gives users flexibility depending on wall size, screen size, and room layout. Manual Focus ControlManual focusing allows users to adjust image sharpness based on projection distance and surface. Proper focus, projector position, and screen alignment are important for better viewing results. Multiple Connection OptionsThe DT6 includes USB-A and HDTV input, plus a 3.5mm AUX output. This makes it useful for connecting compatible media devices, laptops, TV boxes, gaming devices, speakers, or audio accessories depending on setup. Technical Specifications Product Type: Wireless Projector Brand: Hoco Model: DT6 Version: 720p screen mirroring version Main Control: Unisoc 6710 Resolution: 720p, 1280 × 720 pixels Display Technology: LCD LCD Size: 2 inches Projection Size: 22–140 inches Projection Distance: 0.83–3m Brightness: 85 ANSI Wireless Connection: 2.4G + 5G dual-band Wi-Fi Bluetooth Version: BT 5.1 Input Interfaces: USB-A × 1, HDTV × 1 Output Interface: 3.5mm AUX Focusing: Manual focus Tripod Mounting: Supported, tripod not included Power Input: DC 12V, 50Hz / 60Hz Cable Length: 1.2m Supported Languages: 22 languages Dimensions: 141.5 × 112 × 63.5mm Weight: 375g Use Case: Screen mirroring, casual movies, home entertainment, bedroom viewing, presentations, and portable projection Projection Performance Native Resolution: 1280 × 720 Projection Size: 22–140 inches Projection Distance: 0.83–3m Brightness: 85 ANSI Focus: Manual The DT6 is best used in dark or low-light rooms. Bright rooms, daylight, and large projection sizes may reduce image clarity and visibility. Wireless & Bluetooth Wi-Fi: 2.4G + 5G dual-band connection Bluetooth: BT 5.1 Screen Mirroring: Supported on compatible devices Wireless mirroring performance depends on device compatibility, Wi-Fi signal strength, distance from router, and the type of content being mirrored. Ports & Connectivity USB-A Input: 1 port HDTV Input: 1 port AUX Output: 3.5mm The HDTV input is useful for connecting compatible laptops, media boxes, gaming consoles, or streaming devices. The AUX output allows external audio connection if stronger sound is needed. Language Support The Hoco DT6 supports 22 languages, including Chinese, English, Russian, Arabic, Vietnamese, Danish, Thai, Polish, Persian, Spanish, Malay, Greek, French, Italian, German, Portuguese, Turkish, Kazakh, Romanian, Hebrew, Burmese, and Ukrainian. Best Use Cases Bedroom movie watching Small room entertainment Screen mirroring from phone or tablet YouTube and video playback Presentations Photo viewing Casual gaming with compatible devices Portable projector setup Home family entertainment Users who want a compact projector with Wi-Fi and Bluetooth Compatibility

Supports compatible devices through wireless screen mirroring Supports wired video input through HDTV connection Supports USB-A media or compatible USB input use Supports AUX output for external audio Can be mounted on a tripod, but tripod is not included Best results depend on room darkness, projection surface, distance, content quality, and correct manual focusing. What’s in the Box Hoco DT6 Wireless Projector × 1 Audio Cable × 1 HDTV Cable × 1 Power Adapter × 1 Remote Control × 1 User documentation
