Product	Noise Master Buds Max Headphones Sound by Bose (Black)
SKU	cm-MASTER-BUDS-MAX-BK
Brand	Noise
Category	Audio & Video
Minimum order quantity	1
Unit	—
Unit price	$122.00
Available quantity	100

Description

Noise Master Buds Max Wireless Headphones Sound by Bose The Noise Master Buds Max is designed for users who want premium-style wireless headphones with long battery life, active noise cancellation, and app-based sound control. Its strongest selling point is not only “Sound by Bose.” The real advantage is the full package: Bose-tuned audio, Adaptive ANC, LHDC support, Spatial Audio, 60-hour battery life, and comfort-focused over-ear design. Key Features Sound by Bose tuning Adaptive Active Noise Cancellation Noise Audio App support Up to 60 hours playtime LHDC audio support Spatial Audio Dynamic EQ 40mm speaker drivers Bluetooth 5.4 Smart wear detection IPX4 water resistance Fast charging support Type-C charging Android and iOS compatibility Audio Performance Sound by Bose The headphones are tuned with Sound by Bose to deliver balanced audio with deep bass, clear mids, and crisp highs. Dynamic EQ Dynamic EQ automatically adjusts the sound balance at different volume levels, helping maintain detail and clarity whether listening quietly or louder. 40mm Drivers The 40mm speaker drivers support a fuller over-ear sound experience for music, movies, calls, and daily listening. Noise Cancelling Adaptive ANC The Adaptive Active Noise Cancellation helps reduce unwanted background noise across different environments. Best For Commuting, office use, travel, study sessions, and focused listening. Spatial Audio & Codec Support Spatial Audio Spatial Audio adds a wider, more immersive listening experience for supported content. LHDC Support LHDC support can improve wireless audio quality on compatible devices. Important Note LHDC performance depends on device compatibility. Not every phone supports LHDC. Comfort & Design All-Day Comfort Soft vegan leather cushions and a memory foam headband help improve comfort for longer listening sessions. Weight 262g. This is reasonable for over-ear headphones, but users sensitive to head pressure should still expect a more noticeable feel than earbuds. Battery Life Playtime Up to 60 hours of battery life. Charging Time Up to 60 minutes. Fast Charging Supported. Charging Port USB Type-C. Connectivity Bluetooth Version Bluetooth 5.4. Wireless Range Up to 10m. Auto Pairing Automatically connects with the last paired device. Supported Bluetooth Profiles A2DP, AVRCP, HFP, HSP, SPP, AVDTP. Compatibility Android and iOS. Water Resistance IPX4 Rating The headphones are resistant to light splashes and sweat. Expectation Check IPX4 is useful for daily use and light sweat, but these are not waterproof headphones for heavy rain, swimming, or washing. Smart Features Noise Audio App The app allows users to customize and control the listening experience. Smart Wear Detection Audio pauses automatically when the headphones are removed. Charging Indicator Supported. Technical Specifications Product Type Wireless over-ear headphones Audio Tuning Sound by Bose Driver Size 40mm Noise Cancelling Adaptive ANC Spatial Audio Supported Codec Support LHDC Bluetooth Version 5.4 Wireless Range 10m Water Resistance IPX4 Battery Life Up to 60 hours Charging Time Up to 60 minutes Fast Charging Yes Charging Port USB Type-C Weight 262g Compatibility Android and iOS
