Description

Ufesa BE0907 Bathroom Scale The Ufesa BE0907 Bathroom Scale is designed for users who want a simple, slim, and reliable bathroom scale for daily weight tracking. With 4 weighing sensors, 150kg maximum weight capacity, compact 29 × 28cm size, and a slim design, it is a practical choice for home bathrooms, bedrooms, fitness tracking, and everyday personal weight monitoring. Key Features Digital Bathroom ScaleDesigned for simple daily body weight measurement at home. 4 Weighing SensorsBuilt with 4 sensors to help provide stable and balanced weight readings. Up to 150kg CapacitySupports users up to 150kg. Slim DesignEasy to place in bathrooms, bedrooms, closets, or under furniture when not in use. Compact 29 × 28cm SizePractical footprint for home use without taking too much space. Everyday Weight TrackingSuitable for personal health tracking, fitness routines, and household use. Main Feature Sections Simple Daily Weight MonitoringThe Ufesa BE0907 is made for users who want a straightforward bathroom scale for checking weight regularly without complicated smart features or app setup. Stable 4-Sensor MeasurementThe 4 weighing sensors help distribute measurement across the scale surface, supporting more stable daily readings when used on a flat, hard surface. Slim and Space-Saving DesignThe slim body and compact 29 × 28cm size make the scale easy to keep in the bathroom, bedroom, or fitness corner. Technical Specifications Product Type: Bathroom Scale Brand: Ufesa Model: BE0907 Sensors: 4 weighing sensors Maximum Weight: 150kg Design: Slim Dimensions: 29 × 28cm Use Case: Daily weight tracking, home bathroom use, fitness monitoring, personal health tracking, and household use Best Use Cases Daily body weight checking Home bathroom use Fitness progress tracking Weight management Family household use Bedroom or dressing room placement Users who want a simple scale without smart app features Compatibility Suitable for indoor home use Best used on a flat, hard, dry surface Not recommended for uneven, soft, carpeted, or wet surfaces, as readings may be less accurate.
