Product	Hoco N71 30W GaN Charger
SKU	cm-N71
Brand	Hoco
Category	Accessories
Minimum order quantity	1
Unit	—
Unit price	$12.00
Available quantity	100

Description

Hoco N71 30W GaN Dual Port Charger Type-C To iP The Hoco N71 30W GaN Dual Port Charger Set is designed for users who need a compact EU wall charger with both USB-C and USB-A fast charging support, plus a Type-C to iP cable included. With 30W USB-C output, 18W USB-A output, PD / QC / FCP / AFC protocol support, flame-retardant PC material, European standard pins, 83g lightweight design, and a 1m Type-C to iP fast charging cable, it is a practical charging set for compatible iPhone models, smartphones, tablets, earbuds, power banks, and daily USB charging needs. Key Features 30W USB-C Fast ChargingThe USB-C port supports up to 30W output with PD, QC, FCP, and AFC fast charging protocols. 18W USB-A Charging PortThe USB-A port supports up to 18W output with QC, FCP, and AFC protocol support. Dual Port DesignIncludes both USB-C and USB-A ports, allowing users to charge different devices with one compact wall charger. Shared Dual-Port OutputWhen USB-C and USB-A are used together, the total output is 5V / 3A. Type-C to iP Cable IncludedComes as a set with a 1m Type-C to iP fast charging cable for compatible Apple devices. GaN Charger PositioningDesigned as a compact 30W GaN charger set for efficient everyday fast charging. EU Plug DesignEuropean standard pins make it suitable for EU-style wall sockets. Flame-Retardant PC MaterialBuilt with flame-retardant PC material for safer daily charging use. Compact and LightweightSize of 84 × 38 × 27mm and total weight of 83g make it easy to carry at home, office, or travel. Main Feature Sections Fast Charging for Compatible Apple DevicesThe included 1m Type-C to iP cable makes this set especially useful for compatible iPhone models and Apple devices that support iP charging connection. The USB-C port supports up to 30W output, making it suitable for fast charging when the connected device supports it. USB-C and USB-A in One ChargerThe Hoco N71 gives users both a USB-C port and a USB-A port in one charger. This makes it practical for charging newer USB-C devices and older USB-A cable accessories without needing two wall adapters. Complete Charger SetBecause the package includes a Type-C to iP cable, customers receive both the charger and cable in one box. This is a stronger value option for users replacing an old charger or buying a ready-to-use iPhone charging set. Compact GaN Daily ChargerThe compact body and 83g weight make the N71 easy to carry in a travel bag, office drawer, bedroom setup, or daily charging kit. Safe Material for Everyday UseThe flame-retardant PC body adds practical safety positioning for users who charge phones, tablets, earbuds, and accessories every day.
