Description

Hoco N71 PD30W Dual Port Charger Set C To C The Hoco N71 PD30W Dual Port Charger Set is designed for users who need a compact EU wall charger with both USB-C and USB-A output for daily charging. With 30W USB-C output, 18W USB-A output, PD/QC/FCP/AFC fast charging protocol support, flame-retardant PC material, European standard pins, and an included 1m USB-C to USB-C 60W fast charging cable, it is a practical charging set for phones, tablets, earbuds, power banks, and other compatible USB devices. Key Features 30W USB-C Fast ChargingThe USB-C port supports up to 30W output with PD, QC, FCP, and AFC protocol support. 18W USB-A OutputThe USB-A port supports up to 18W output with QC, FCP, and AFC protocol support. Dual Port ChargingIncludes USB-C and USB-A ports so users can charge two devices from one wall charger. USB-C + USB-A Shared OutputWhen both ports are used together, total output is 5V / 3A. 1m USB-C to USB-C Cable IncludedComes with a 1-meter C to C cable supporting up to 60W fast charging. EU Plug DesignEuropean standard pins make it suitable for EU wall sockets. Flame-Retardant PC MaterialBuilt with flame-retardant PC material for safer daily charging use. Compact SizeSmall 84 × 38 × 27mm body is easy to carry and use at home, office, or while traveling. Main Feature Sections Fast USB-C Charging for Daily DevicesThe Hoco N71 provides up to 30W output through the USB-C port, making it suitable for fast charging compatible smartphones, tablets, earbuds, power banks, and other USB-C devices. USB-A Port for Extra FlexibilityThe USB-A port supports up to 18W, giving users a second charging option for older cables, accessories, or devices that still use USB-A charging. Dual-Port ConvenienceWith both USB-C and USB-A ports, the charger can power two devices at the same time. This makes it practical for users who want one charger for phone and accessory charging. Cable Included for Better ValueThe set includes a 1m USB-C to USB-C 60W fast charging cable, so users get both the charger and a compatible cable in one package. Safe and Practical BuildThe flame-retardant PC body and compact EU plug design make the N71 suitable for daily charging at home, in the office, or inside a travel bag. Technical Specifications Product Type: Dual Port Wall Charger Set Brand: Hoco Model: N71 Plug Type: European standard pins / EU plug Material: Flame-retardant PC material USB-C Output: 30W USB-C Protocol Support: PD / QC / FCP / AFC USB-A Output: 18W USB-A Protocol Support: QC / FCP / AFC Dual-Port Output: USB-C + USB-A = 5V / 3A Included Cable: 1m USB-C to USB-C 60W fast charging cable Charger Size: 84 × 38 × 27mm Use Case: Smartphone charging, tablet charging, power bank charging, earbuds charging, accessory charging, home use, office use, and travel charging Charging Output USB-C Single-Port Output: Up to 30W USB-A Single-Port Output: Up to 18W USB-C + USB-A Output: 5V / 3A Charging speed depends on the connected device, charging cable, battery level, temperature, and whether the device supports the same fast charging protocol. Included Cable Cable Type: USB-C to USB-C Cable Length: 1m Cable Power Support: Up to 60W The included cable is suitable for USB-C devices and helps users start charging without buying a separate C to C cable.
