Description

Hoco HP27 Electric Hair Clipper The Hoco HP27 Electric Hair Clipper is designed for users who want a rechargeable grooming tool for hair trimming, touch-ups, and personal haircut maintenance. With a stainless steel blade, ceramic cutting edge, 7000 / 7500rpm motor speed, 1200mAh battery, up to 150 minutes of usage time, Type-C charging, LED digital power display, and 4 limit combs included, it is a practical clipper for home grooming, travel, and daily personal care. Key Features Electric Hair ClipperDesigned for hair trimming, haircut maintenance, and personal grooming. Stainless Steel Blade + Ceramic Cutting EdgeHelps cut hair smoothly while reducing hair pulling and overheating during use. Prevents Hair From Getting StuckBlade design helps improve cutting flow for a cleaner trimming experience. 7000 / 7500rpm Motor SpeedProvides strong cutting performance for regular hair trimming. 1200mAh Rechargeable BatteryBuilt-in battery provides up to 150 minutes of usage time. Type-C ChargingCharges through a modern Type-C port using 5V / 1A input. 2.5-Hour Charging TimeRecharges in approximately 2.5 hours. LED Digital DisplayShows battery power level clearly during use. 4 Limit Combs IncludedComes with 1.5mm, 3mm, 4.5mm, and 6mm guide combs for different cutting lengths. Lightweight 145g DesignEasy to hold and control for home grooming and travel use. Main Feature Sections Smooth Cutting Blade SystemThe Hoco HP27 uses a stainless steel blade with a ceramic cutting edge to help trim hair smoothly and reduce overheating during longer grooming sessions. This makes it practical for personal haircuts, beard line touch-ups, and regular maintenance. Strong Motor for Daily GroomingWith 7000 / 7500rpm motor speed, the clipper provides reliable cutting power for common hair trimming needs. It is suitable for users who want a rechargeable clipper for home use without needing a large barber machine. Long 150-Minute Usage TimeThe 1200mAh battery provides up to 150 minutes of use, giving enough runtime for multiple grooming sessions depending on use style and hair thickness. Type-C Rechargeable ConvenienceThe Type-C charging port makes recharging easier using a compatible USB power source. The clipper charges in about 2.5 hours with 5V / 1A input. Clear Battery DisplayThe LED digital display shows the remaining power level, helping users know when the clipper needs charging before or during use. Technical Specifications Product Type: Electric Hair Clipper Brand: Hoco Model: HP27 Blade Material: Stainless steel blade + ceramic cutting edge Motor Speed: 7000 / 7500rpm Battery Capacity: 1200mAh Usage Time: Up to 150 minutes Charging Time: Approx. 2.5 hours Charging Input: 5V / 1A Charging Port: Type-C Display: LED digital power level display Material: ABS + ceramic + stainless steel + electronic components Limit Combs: 1.5mm, 3mm, 4.5mm, 6mm Accessories: Charging cable, cleaning brush, oil bottle, 4 limit combs Dimensions: 155 × 42 × 38mm Weight: 145g Use Case: Hair trimming, haircut maintenance, grooming, touch-ups, travel grooming, and home use Battery Life & Charging Battery Capacity: 1200mAh Usage Time: Up to 150 minutes Charging Time: Approx. 2.5 hours Charging Input: 5V / 1A Charging Port: Type-C Actual usage time depends on hair thickness, selected cutting length, pressure during use, cleaning condition, and battery health.
