Description

Hoco UA36B Type-C to USB-A Adapter The Hoco UA36B Type-C to USB-A Adapter is designed for users who need a compact converter to connect USB-A accessories to Type-C phones, tablets, laptops, and computers. With Type-C male input, USB-A female output, OTG function, USB3.0 5Gbps data transfer, direct USB flash drive reading, charging support, dual-side LED indicator, semi-transparent housing, and durable aluminum alloy + PVC build, it is a practical adapter for data transfer, file reading, charging, and daily Type-C device use. Key Features Type-C to USB-A AdapterConverts a Type-C port into a USB-A female port for compatible USB-A accessories. OTG Function SupportAllows supported Type-C phones, tablets, or computers to read USB devices directly. USB3.0 5Gbps Transfer SpeedSupports fast data transfer up to 5Gbps under compatible USB3.0 conditions. USB Flash Drive ReadingEnables direct file reading from USB flash drives on Type-C interface phones or computers. Charging SupportSupports charging through compatible USB-A cables and devices. 5V / 2A Charging with USB-A to iP CableSupports 5V / 2A charging when used with a USB-A to iP charging cable. 3A Charging with USB-A to Type-C CableSupports up to 3A charging when used with a USB-A to Type-C charging cable. Dual-Side LED IndicatorMakes connection status easier to see from both sides. Semi-Transparent HousingGives the adapter a modern tech-style appearance. Compact Mini SizeSmall 35 × 10 × 17mm body makes it easy to carry anywhere. Durable Material BuildMade from aluminum alloy and PVC for reliable daily use.
