Description

Hoco UA36C USB-A to Type-C Adapter The Hoco UA36C USB-A to Type-C Adapter is designed for users who need a compact converter to connect Type-C accessories to USB-A laptops, PCs, chargers, and compatible devices. With USB2.0 480Mbps data transfer, Type-C flash drive reading support, charging support, dual-side LED indicator, semi-transparent housing, aluminum alloy and PVC construction, and a small 33 × 7 × 15mm body, it is a practical daily adapter for data transfer, charging, and Type-C accessory connection. Key Features USB-A to Type-C AdapterConverts a USB-A male connection into a Type-C female port for compatible Type-C accessories. USB2.0 Data TransferSupports up to 480Mbps transfer speed under USB2.0 conditions. Type-C Flash Drive ReadingAllows direct file reading from a Type-C flash drive on a USB-A interface PC or laptop. Charging SupportSupports charging depending on the cable and connected device. 5V / 2A Charging SupportWith a Type-C to iP charging cable, it supports 5V / 2A charging. 3A Charging SupportWith a Type-C to Type-C 60W charging cable, it supports 3A charging. Dual-Side LED IndicatorMakes connection status easier to see from both sides. Semi-Transparent HousingGives the adapter a modern tech-style appearance. Compact Mini DesignSmall 33 × 7 × 15mm size makes it easy to carry in a pocket, pouch, or laptop bag. Durable Material BuildMade from aluminum alloy and PVC for daily-use durability.
