Product	Hoco UA37 USB-A Ethernet Adapter
SKU	cm-UA37
Brand	Hoco
Category	Accessories
Minimum order quantity	1
Unit	—
Unit price	$12.00
Available quantity	100

Description

Hoco UA37 USB-A to RJ45 Ethernet Adapter The Hoco UA37 USB-A to RJ45 Ethernet Adapter is designed for users who need a stable wired network connection from a laptop, desktop, or compatible USB-A device. With USB-A male input, RJ45 female Ethernet port, support for 10 / 100 / 1000Mbps network standards, plug-and-play use, aluminum alloy body, nylon braided cable, compact 12cm cable length, and lightweight 23g design, it is a practical solution for replacing unstable Wi-Fi and adding wired LAN connectivity to devices without a built-in Ethernet port. Key Features USB-A to RJ45 Ethernet AdapterConverts a USB-A port into an RJ45 wired Ethernet connection. Gigabit Network SupportSupports 10 / 100 / 1000Mbps network standards for compatible wired network setups. Plug and PlayNo driver required for supported systems, making setup simple and fast. More Stable Than Wi-FiHelps provide a stronger and more reliable wired connection compared to unstable wireless networks. Ideal for Laptops Without Ethernet PortsSolves the problem of missing wired network interfaces on modern laptops. Aluminum Alloy BodyDurable metal housing gives the adapter a strong and clean finish. Nylon Braided CableHelps improve cable durability for daily use, travel, and office setups. Compact 12cm Cable LengthShort cable design keeps the setup clean and easy to carry. Lightweight 23g BuildEasy to keep in a laptop bag, office pouch, or travel accessory kit.
